

Essential Research Toolkit for the Humanities

Week 1: Why am I here?

Anna Pryslopska

April 11, 2022

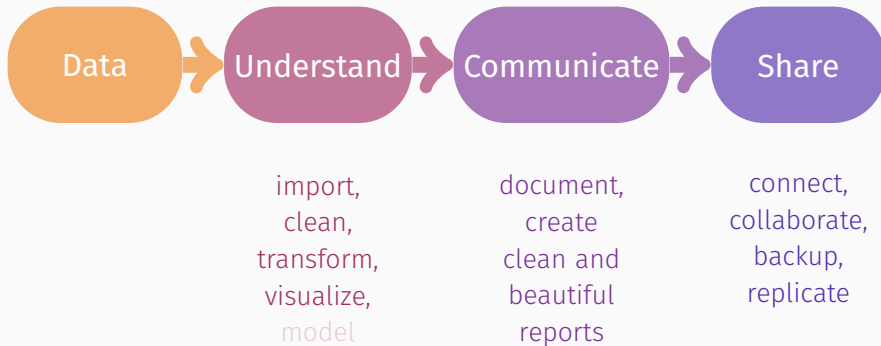

Psycholinguistics and Cognitive Modeling Lab

Table of contents

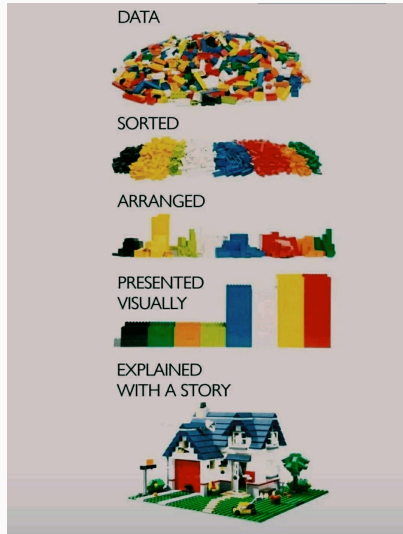

1. What is this course about?
2. What do you need to do?
3. General information
4. Experiment
5. Homework assignment

What is this course about?

Workflow

Tell a story

This you?

Questions?

Experiment

Create data

Group 1 go to this link: <https://tinyurl.com/ERT4H01>

Group 2 go to this link: <https://tinyurl.com/ERT4H02>

Experimental Research Toolkit 4 Humanities 0X = ERT4H0X

Q: Can a man marry his widow's sister?

No 🧠 🧠 🧠

Q: According to the Bible, how many animals of each kind did Moses take on the ark?

can't answer

Q: How many numbers are in the English alphabet?

answer

can't

Moses Illusions or *semantic illusions* occur when readers fail to recognize inconsistency in a text even if they were warned and know the correct word (Erickson and Mattson 1981).

Homework assignment

Homework assignment due April 25

- Install R: <https://cran.r-project.org/>
- Install RStudio: <https://www.rstudio.com/>
- Read chapters 1–2 of “R for Data Science”
<https://r4ds.had.co.nz/>

No class next week → Easter Monday 🐰

Next time: Looking at data you created!
