

Digital Research Toolkit for Linguists

Week 1: What am I doing?

Anna Pryslopska

April 8, 2025

Psycholinguistics and Cognitive Modeling Lab

Table of contents

1. What is this course about?
2. What do you need to do?
3. General information
4. Data
5. Homework assignment

What is this course about?

Workflow

What to do with data

DATA

SORTED

ARRANGED

PRESENTED
VISUALLY

EXPLAINED
WITH A STORY

Who are you?

What do you study? Why are you taking this course? Do you have any programming experience? What OS do you use?

What do you need to do?

Course requirements

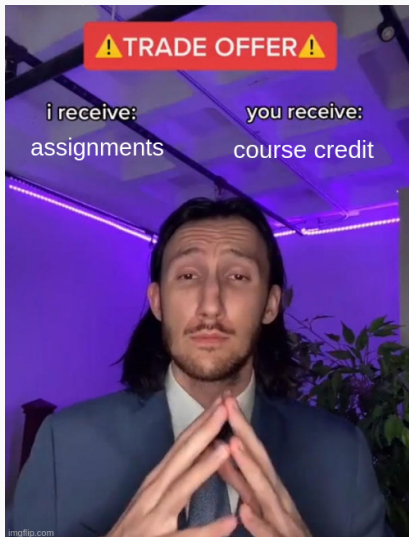

- 📁 **Materials:** laptop with internet access
- ✓ **3 ECTS:** complete weekly assignments & **take a scary exam**
- ✓ **6 ECTS:** complete weekly assignments & **take a scary exam** & design a poster
- ✓ **9 ECTS:** complete weekly assignments & **take a scary exam** & design a poster & present the poster

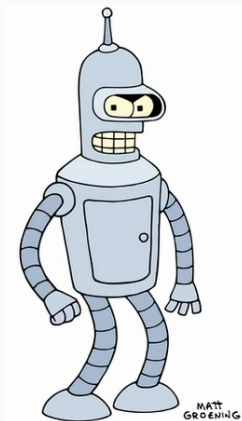

You don't need to finish the assignments, but you need to give your best honest effort (+ explain where you got stuck)

Course credit

✓ complete $n - 2$ assignments

✗ complete $< n - 2$ assignments

I expect you to not use AI for homework assignments. I expect you to write everything yourself. What you may use AI for is asking specific technical questions.

YES “Why am I getting this error?”
NO “Build a data preprocessing pipeline.”

If you have questions regarding what does and does not constitute appropriate use of AI for this course, either don't use AI or ask me.

General information

Course information

🕒 **Time:** Tuesdays 11:30-12:45

📍 **Room:** Keplerstr. 17 (K2), 17.81

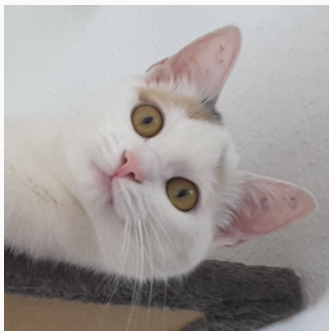

💬 **Language:** Simple English

👥 **Mode:** In person

🌐 **<https://ilias3.uni-stuttgart.de/go/crs/4032783>**

❓ **Course questions:** Weekly discussion thread on ILIAS

Course information

👤 Lecturer: 'anna pris'wopska

🏛️ Office: Keplerstr. 17 (K2), R 4.055

📅 Office hours: by appointment

Questions?

Data

So fließen Standortdaten von Handys in fremde Hände

“Databroker Files: Wie uns Apps und Datenhändler der Massenüberwachung ausliefern”

S. Meineck, I. Dachwitz, K. Brunner and R. Ciesielski

Homework assignment

Homework assignment due April 14th

Make data. Take part in a mini experiment:
<https://farm.pcibex.net/p/glQRwV/>

Get the **technical stuff** out of the way:

- ❓ Complete assignment 1 (→ ILIAS)
 - Install R: <https://cran.r-project.org/>
 - Install RStudio: <https://www.rstudio.com/>
 - Check if your data is sold:
Netzpolitik Databroker-Check

Next time: Looking at data you created!
